

Smartedge

**The complete
lawn edging system**

as easy as...

Available in
10m/50m+
lengths

What is Smartedge?

The purpose of "Smartedge" is to save time and effort for the professional and amateur gardener and at the same time keep your garden looking great all year round.

"Smartedge" has been designed for the lawn edge and flower beds or between lawn and path, preventing roots and earth distorting the lawn edge.

One edge is fixed into the ground and prevents root and earth penetration, whilst the top edge allows the grass through, thus forming an extra edging system.

Sit back and relax as "Smartedge" does the rest.

BUY ONLINE at <http://www.lawnedging.ie>

Simple 3 steps

1. Simply lay new "Smartedge" lawn edging system

2. The lawn grows through the unique "Smartedge" "A" frame structure

3. RESULT: An easily maintained lawn edge
